Aloha Summer School Families,

HTA is committed to ensuring that **all** students have equal access to high quality instruction. This is especially important in light of the impact on education that our keiki have experienced as a result of the pandemic.

On Wednesday, April 21st, HTA's Governing Board decided to provide financial support to summer school families in grades **9-12** and middle school students taking math credit recovery courses. This decision was reached after very careful consideration, as HTA does not receive funding to cover summer school programming. Nonetheless, our Governing Board of Directors strongly feel this is a necessary cost in order to accommodate families during this time of economic recovery.

While families will still have to pay the summer school tuition fee when first registering, they will receive a **full refund for active participation and completion of the summer school courses**. If your family cannot pay the full summer school tuition upon registration, please contact HTA's Summer School Co-Director, Alana Tyau at summerschool@myhta.

As a reminder, the decision to offer families a full refund extends to students in grades 9-12 and middle school students taking math credit recovery courses only. The summer school tuition fee for Middle School enrichment courses will remain in place.

If your family has not been economically impacted by COVID-19, and you would like to donate your tuition to the school, you will have an option to do so at the conclusion of summer school. Your donation not only helps support HTA in providing our keiki with a quality education, but also allows us to offer statewide programs, such as HTA's Virtual Summer School, to students across Hawai'i. We thank you for your continued support.

If you have any questions or concerns, please contact the Summer School team at summerschool@myhta.org.
